

Consumables

1/2

In addition to our specialist products for different industrial markets, Temati B.V. also supplies a wide range of high quality accessory materials for the consumable market.

Temseal™ silicone sealants, available in several colours, IMO certified **Kiiltoflex K®** MS polymer and various aluminium tapes are just a few examples of these products, specially developed for professional use.

Temati B.V. is constantly looking for new and better solutions and products to optimize our service to the market. Our innovative attitude also ensures that the growth of our accessory and consumable materials range is an on-going development.

Consumables

2/2
