

18 litre sprayable container adhesive

Description:	a haps-free multi-purpose contact adhesive supplied in a 18 litre pressurised container which is linked through a 4 metre hose to a spray gun. This provides an easy to use, portable, time saving adhesive spray system.
Adhesive:	synthetic rubber
Solvent:	non-chlorinated
Propellant:	hydrocarbons 70 psi
Viscosity:	100–300 cps
Temp range:	5 - 105 °C
Peel test:	120 newton meters (nm)
Solids:	approx 30%
Tack time:	1–3 minutes
Tack life:	20 minutes
Container size:	18 litres
Colour:	clear
Coverage:	100–200 m ²
Shelf life:	12 months in unused canister
Storage:	5 – 25 °C (to be conditioned up to room temperature before use)
Usage notes:	Must be used at room temperature (15 - 25 °C) to ensure proper performance. Not suitable for use on highly plasticized PVC. An evaluation of the product should be carried out before commercial use is undertaken.
